THANKS

One day I sat down and relaxed and went back over the last year: I thought of all I could be grateful for - people I met who helped me, people whom I love and who love me, the times someone seemed to care. And I was grateful too for times I could help another, show some care, and make life that bit easier and safer for family, friends, pupils, colleagues, and all I contact.

And I thought of health and faith, for having food on my table, and enough to live on.

Problems and worries came to mind too: the worries of others and my faults and failings, but in the atmosphere of thanks, they seemed less intense.

And I know I could go back over the years and say thanks too, like a river of thanks flowing by as I sit and enjoy the memories and feel the thanks.

Thanks - a word that brings us alive, for what once was can always give life. Thanks - a word that keeps us humble, for we know that we depend on others. Thanks - a word that keeps us joyful for we know that in every day there are the meetings and the memories, the help and the support, given and received, which are the seeds of life and of growth.

May we be people who are truly grateful to others and to God for what makes life worthwhile.

Remember this day, remember last week, remember all times, and be grateful!
