Reflection

Once there was a young man who had never thought of donating blood.

But then his father got very ill and was hospitalised.

One day the son was sitting by his father's bedside as he was getting a blood transfusion.

As he watched the blood flowing into his father's veins, he suddenly realised that someone had donated the blood that was now keeping his father alive.

Straight away he made up his mind to become a donor, and he was as good as his word.

Many are willing to avail of the generosity of others, but few are willing to give something back. This is why gratitude is so important. It makes us want to give

something back.
