Catholic Social Teaching is based on the belief that God has a plan for creation, a plan to build his kingdom of peace, love and justice. It holds that God has a special place in this story for each of us, whoever we are. Our part in this plan isn't just limited to things 'spiritual', or things we might do on Sundays, but that it involves every aspect of our lives, from the things we pray about, to how we live as a responsible global citizens. As we come near to Holy Week we might ask ourselves how does my faith shape my week? Is my faith living in the world as well as in the church.

The immediate concerns are of the major traffic disruptions that will affect commuters traveling to work and school as well as a serious threat to emergency services. Also, business people will be at a major financial loss due to this work.
