**SUPPORT THE TROCAIRE LENTEN CAMPAIGN:** Climate change affects everyone...but not equally. You can help those least able to cope. Climate change is already a real issue for the world's poorest people as they depend on rainfall to grow their food and make a living. This Lent, your generosity will help to fund irrigation programmes and new farming practices that will help communities to adapt to climate change and reduce their vulnerability to drought. Just €2 a day will provide drought resistant seeds for a farming family in southern Africa, who have experienced regular crop failure as a result of rain shortages. Or will provide goats or chickens which can provide a farming family with an alternative income in times of drought and crop failure. Or will contribute to an irrigation kit for families who are struggling to produce crops in increasingly dry areas of Latin America. This Lent, please support Trocaire. Your Trocaire box will help save lives this Lent.
