Not just a story - Dives and Lazarus

In one of the world's poorest cities I saw a young boy selling fruit at the railway platform. He would make a few pence a day, enough maybe to stay alive, and God knows where he would sleep.

The inequality of opportunities in the world, Dives and Lazarus - not just a story but real life.

We don't all start life on a level playing field; some walk uphill from the very beginning, and Jesus was among the poorest of us.

Our heart must wince at children who are hungry and homeless from birth, at people who want a job and cannot get one, at homelessness, addiction, and any form of abuse; for parents who cannot give to their children the best of life and love they wish for them; for the elderly who are poor and neglected, and we wonder what can we do.

For we are not the problem: neither you nor I have caused the poverty of so many, but we can be part of the solution.

We can join our hearts with the heart of God and urgently wish to make things better; we can join our hands to the hands of God and urgently work to make things better; and create within parish, neighbourhood, city and world, places where a more just and caring society is created.

Can we hear the cry of people who feel neglected so that our hearts are moved with compassion and our energies moved to give time, love, and care to those who need help and support, for they are the brothers and sisters of Jesus?
